

## ACTION TAKEN REPORT YEAR 2023-2024

We gathered and analysed feedback from students across various courses on multiple aspects and implemented actions based on the insights obtained.

1. Students have mostly rated the sports facilities as above average or good. To further increase the percentage of excellent ratings, the sports committee has been revamped, and regular sports meets are now being organized.
2. Some complaints about the canteen facilities were noted. Measures such as routine checks on cleanliness, food quality, and variety are being implemented to address these concerns.
3. A few complaints regarding the cleanliness and upkeep of washrooms have been addressed. The college is ensuring regular maintenance and efficient cleaning services to improve this aspect.
4. The usage of online educational resources among students is relatively low. Faculty members are encouraging students to utilize these resources through assignments, case studies, and presentations to enhance learning.
5. A low student turnout in the library was observed. Faculty members are promoting library use by assigning case studies and projects that require reference materials available in the library.
6. Feedback revealed that some students have limited access to the computer lab due to their coursework. To address this, efforts are being made to introduce relevant basic computer subjects, ensuring regular access and exposure to the lab for all students.
7. The majority of students provided positive feedback about the faculty. However, minor areas for improvement were identified. To address these, regular developmental programs and personal meetings are being conducted for faculty members to enhance their teaching methods.
8. Parents suggested preparing students for career planning, creating dedicated parent groups, and ensuring regular interaction between teachers and parents. These recommendations are being actively worked on.
9. Teachers highlighted the need for skill enhancement opportunities in teaching and research. The college is providing necessary support and training to help them upgrade their skills.
